Charleston, West Virginia 25304
Phone: (304) 342-1400
Contact: Patrick Ward

125 Lakeview Drive
Morgantown, West Virginia 26508
Phone: (304) 225-2245

15 South Braddock Street
Winchester, Virginia 22601
Phone: (540) 450-0180

*Inclusion on the SBAP qualified auditors list does not, in any way, constitute an endorsement or recommendation by the WV Small Business Assistance Program (SBAP), the WV Division of Air Quality (DAQ), the WV Department of Environmental Protection (DEP), or the State of West Virginia. However, the SBAP conducts reference checks on candidates and has established requirements that companies must meet to be included on the consultant's list. Omission from the list does not necessarily imply that a contractor is unqualified to perform air-quality compliance audits or other air-related services. Most services provided by consultants are performed for a fee, to be paid by the recipient of the services. It is recommended that cost and payment arrangements be negotiated prior to the performance of any services.

WEST VIRGINIA AIR-QUALITY QUALIFIED CONSULTANTS

BRIEF SUMMARY OF AIR-RELATED SERVICES OFFERED [Revised July 8th, 2021]

COMPANY NAME	COMPLIANCE AUDITS	EMISSIONS INVENTORY	PERMITTING	MONITORING EQUIPMENT INSTALLATION	EMISSIONS CONTROL SELECTION/ PURCHASING	EMISSIONS CONTROL ENGINEERING	SAMPLING/ STACK TESTING	INDOOR AIR QUALITY EVALUATION	LEGAL SERVICES
Potesta & Associates, Inc	X	X	X		X		X**		

*Stack testing is limited to Method 9, Method 22 and Visible Emissions observations only. Air samples may be collected to evaluate initial atmospheric hazards prior to development of a site-specific health and safety plan, to monitor air quality during site activities, to evaluate air quality in the workplace, and to conduct leak detection and repair (LDAR) surveys. Potesta personnel possess the necessary experience with test methods and sampling events. POTESTA can also perform asbestos inspections and sampling and provide construction oversight during abatement work.

Company Description:

POTESTA is a full-service civil engineering and environmental consulting company which has 74 employees. They provide services in civil engineering, including surveying, and environmental services dealing with stormwater, wastewater, waste, remediation, and air-related permitting and regulatory/compliance issues. Of this group, they have five (5) individuals that work on air quality-related issues (permitting, reporting, auditing, enforcement issues, and negotiating with DAQ). POTESTA maintains a professional staff to continue to meet environmental needs of their current and future clients. POTESTA employee's abilities allow them to assign employees that are qualified to conduct the work and have years of experience in air quality-related environmental audits and assessments and other related air issues. POTESTA will make the initial site visit or conduct teleconferences and review the requirements of environmental permitting and environmental programs at no cost for small businesses. For the remaining services, POTESTA will develop a proposal that will include the scope of services and the detailed costs associated with supplying that service. Most projects are sufficiently different that the cost will depend on the site and the difficulty of the regulatory requirements that apply to the site. POTESTA invoices our services based on standard terms and conditions which include standard fees. Compliance Audits for Environmental Issues –Air, Waste, Water, AST, and Underground Storage Tanks, including Groundwater Protection and Pollution Prevention. POTESTA can conduct a multi-media compliance audit, or they can tailor an audit to the necessary programs as needed to meet the client's needs.

Services Provided Include:

- Identification of Potential Air Pollution Sources, Resulting Emissions, and Applicable Standards
- Development of Control Strategies
- Preparation of State and Title V Permit Application for Construction, Modification, or Relocation
